Frontend Developer

Experienced React Developer specializing in building scalable and responsive web applications. Proficient in leveraging the latest React.js features to create modular and efficient components. Passionate about delivering seamless user experiences through innovative web development.

CORE PROFICIENCIES

- | | | |
|--------|---------------------|-----------|
| - HTML | - JavaScript (ES6+) | - jQuery |
| - CSS | - Typescript | - Redux |
| - SASS | - React.js | - Next.js |

EXPERIENCE

> Freelance Frontend Web Developer – Full Time Mostaqi

Aug 2023 – present

- Independently manage and complete frontend development projects for various clients.
- Collaborate closely with clients to understand project requirements and deliver tailored solutions.
- Utilize HTML, CSS, and JavaScript to create responsive and visually appealing websites.
- Integrate third-party APIs and libraries to enhance website functionality.
- Provide ongoing maintenance and support for client websites, ensuring optimal performance.
- Conducted code reviews, provided constructive feedback, and ensured adherence to coding standards.
- Collaborated with backend developers to integrate frontend and backend components.

> Frontend Web Developer - Intern Route

Oct 2023 – Mar 2024

- Embarked on a dynamic learning journey where I acquired proficiency in key web development technologies. Applied my newfound knowledge in HTML5, CSS3, and Bootstrap to craft visually appealing and responsive user interfaces for web applications. Leveraged JavaScript (ES6+) to introduce interactivity and enhance the overall user experience.
- Dove into the intricacies of third-party API integration, using various libraries to extend the functionality of my projects. Demonstrated a keen understanding of JSON for efficient data handling and exchange within web applications.
- I independently conceptualized and executed projects, translating theoretical knowledge into practical solutions. Delved into the complexities of web development, from structuring content with HTML to styling layouts with CSS and ensuring cross-browser compatibility.
- In the process, I applied JavaScript to introduce dynamic elements and create engaging user interfaces. The inclusion of Bootstrap facilitated the development of mobile-friendly and visually cohesive web applications.
- Enthusiastically embraced challenges and continuously honed my skills, showcasing a commitment to providing seamless user experiences.

Projects

> Portfolio

dynamic portfolio showcasing a diverse range of design projects and creative works.

Features:

- Responsive design for optimal user experience across devices.
- Secure user authentication and authorization
- Shopping cart functionality with real-time updates
- Integration of third-party payment gateways for secure transactions

Technologies: React.js, TypeScript, React, Next.js, Tailwind, Framer Motion
