Projects

> Levoire

Developed and launched Levoire, a modern e-commerce platform featuring robust product management

shopping cart, reviews, wishlist, and an admin dashboard for store management.

Features:

- Responsive design for optimal user experience across devices.
- Secure user authentication and authorization (NextAuth, Google OAuth)
- Shopping cart with real-time updates and Stripe payment integration
- Product filtering by category, color, size, and style
- Admin panel for product, brand, and order management

Technologies: Next.js, React, TypeScript, Tailwind CSS, Prisma, PostgreSQL

Live: <https://levoire.shop>

Github link: <https://github.com/ahmedfawzy1/levoire>

> Bloxboom

Development and launch of a top-tier e-commerce platform designed for selling video game items.

Features:

- Ensured mobile-first, adaptive layouts to optimize user experience across phones, tablets, and desktops.
- Developed a dynamic cart system with live updates and secure transactions.
- Streamlined the fulfillment process with detailed order status, shipment progress, and history logs.
- multilingual and multi-currency support for a global customer base.

Technologies: Next.js, React, TypeScript, Tailwind, Framer Motion

Live: <https://bloxboom.com>

> Fresh Cart (E-Commerce)

Developed and launched "freshcart," a feature-rich e-commerce platform catering to diverse market needs.

Features:

- Responsive design for optimal user experience across devices.
- Secure user authentication and authorization
- Shopping cart functionality with real-time updates
- Integration of third-party payment gateways for secure transactions

Technologies: HTML5, CSS3, Bootstrap, JavaScript (ES6+), JSON, React.js

Live: <https://freshcartapp.netlify.app>

Github link: <https://github.com/ahmedfawzy1/freshcart>
